

# Leadership Team

## **Sean Mason**

### **Vice President Software Engineering**

As Vice President of Software Engineering, Sean is responsible for cultivating VBA's software development road map and managing its new application development and production support. Sean oversees the Information Technology department.

Sean is an experienced software engineering leader with expertise in Agile Software Development Philosophy, Business Operations and Cloud Operations. Since joining VBA in 2015, Sean has served as Software Architect for VBA's proprietary internal software applications. Sean actively manages internal team members, independent contractors and information systems related vendors. Sean champions an Agile software development philosophy to include personal and team education. Sean was the recipient of the 2018 VBA President's Award for his accomplishments and dedication to his work.

Prior to joining the VBA team, Sean served as a Software Engineer for BBL Fleet Leasing. He also worked as an Applications Developer for Lending Processing Services, Inc. Sean earned his Bachelor of Science in Computer Science from the University of Pittsburgh.

Sean grew up in New Brighton, PA and currently resides in Monaca, PA with his wife and two children. Even in his free time, Sean enjoys working with technology and learning new skills. He is an avid baseball fan, and has visited over a third of the MLB stadiums. Sean likes to attend opening day each year for his favorite team, the Pittsburgh Pirates.
